

## A GOOD THING.

## Prize Fight Crafters Work the Newspapers.

The newspapers are devoting column after column to the Britt-Nelson fight. Meanwhile the managers have announced that the sale of tickets is so large that the free list will be entirely suspended. In other words the newspapers, which have helped entirely to make the game and swell the profits of the enterprise are to be excluded if they don't pay. If the papers were to let the fight alone between now and the event there would not be half the audience.

The thing already has a fakey look. There was a side bet of \$10,000 made with a great flourish of trumpets by the principals. The first \$2,500 was put up with a stout cord tied to it and that will be drawn down in a few days. It is a fine large skin game to work the public and if Britt manages to keep out of harms way during the contest and wins on points the public will still be unwise as to who is the better man.

A finish fight in Nevada would have settled the championship.

Its an even bet that they split the purse.

## IN THE DISTRICT COURT OF THE UNITED STATES FOR THE DISTRICT OF NEVADA.

## In the matter of the Henry Hironymous, Bankrupt.

To the Honorable Thomas P. Hawley, Judge of the District Court of the United States for the District of Nevada; Henry Hironymous, of Yerington, in the County of Lyon in the State of Nevada, in said district, respectfully represents that on the 7th day of April, 1904, he was duly adjudged bankrupt, under the laws of Congress relating to bankruptcy; that he has duly surrendered all his property and rights of property and has fully complied with all the requirements of said act and of the orders of the court touching his bankruptcy.

Wherefore he prays that he may be decreed by the court to have a full discharge from all debts provable against his estate under said bankruptcy except such debts as are excepted by law from such discharge.

Dated this 24th day of August, 1905.  
HENRY HIRONYMOUS,  
Bankrupt.

## Order of Notice Thereon.

District of Nevada, ss. . . . .  
On this 25th day of August, A. D. 1905, on reading the foregoing petition, it is—Ordered by the Court, that a hearing be had upon the same on the 9th day of September, A. D. 1905, before said Court, at Carson City, in said district, at 10 o'clock in the forenoon; and that notice thereof be published in the "Morning Appeal" a newspaper printed in said district, and that all known creditors and other persons in interest may appear at the said time and place and show cause, if any they have, why the prayer of the said petitioner should not be granted.

And it is further ordered by the court, that the clerk shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.

Witness the Honorable Thomas P. Hawley, Judge of the said court, and the seal thereof, at Carson City, in said district on the 25th day of Aug. A. D. 1905.

T. J. EDWARDS,  
Clerk.

## An Expensive Court House.

In 1871 Lincoln county was bonded for \$181,000 to erect a courthouse at Pioche. It is a stone building 40 by 60 feet, two stories high, with a small jail in the rear. Today \$15,000 would build a better structure, but considering the high prices of 1871, probably \$50,000 went into the work. About \$18,000 more was spent for a toilet and \$10,000 for stone steps, and the balance of the money got away somehow. The bonds remained and bore interest at the rate of 10 per cent until now there is a debt of \$630,000 as a legacy—all growing out of that court house.

100 dozen men's half hose. Colors black and tan, all sizes, Richmond Hosiery Mills. Regular 15 cents per pair. At the Emporium sale, Tuesday, Wednesday and Thursday, NINE CENTS A PAIR. See Show window display.

Don't overlook the fact that aside from the large and varied stock of shoes carried at Ed. Burlington. He has a quantity of broken sizes of good quality. These you can buy very cheap and are always bargains.

## IS JIM TOWNSEND ALIVE.

## Evidence Points to His Work on the Reno Journal.

It has been rumored that the report, made some years ago, of the death of Jim Townsend, was a pure fake turned loose by that erratic gentleman himself in order that he might be able to read some of the obituaries thrown over his remains by the state press.

The rumor died out some years ago but it is now being revived. It is reported that he is a scurrilous contributor to the columns of the Reno papers and is hidden away in an obscure corner of the Flannagan warehouse where he writes in the night.

Certainly the nine legged fish, which escapes from streams and runs over alfalfa fields, could have originated from no other source. Yesterday the Journal told of another trout that puled a boy off the bank of the Truckee and nearly drowned him.

This reliable newspaper also tells of a stroke of lightning that melted the iron picks of some Japanese laborers near the Hazen cut-off but did not phaze the handles. The iron was not only melted but was resolved into vapor which slowly diffused itself into the air.

Nobody but the incomparable Jim could have framed up that story as it appears in the Journal.

We are really glad that Jim is back in the land of the living and hope to see him once more in the regular journalistic harness. His imagination has enjoyed a good rest and he is getting down to work in good shape.

## A Nevada Industry.

A. E. Larson of Reno is in this section of the country taking orders for the Nevada U. S. Fence Company. The Company will manufacture a wire fence in Reno which is destitute of bars. It is stronger and cheaper and bound together in such a way that the strain does not come on one but all the wires when an effort is made to break it. Bars are going out of use in any wire fencing owing to the immense damage to stock.

This fence will stand a strain of fifteen hundred pounds to the wire and it is sold on such liberal terms that the Appeal feels certain that it will soon supersede the old fashioned barbed wire that causes the maiming of so much valuable stock annually.

## Ore Shipments Soon From Silver Bow

The first shipments from Silver Bow will reach Tonopah in about ten days, and they will be so rich that they will rival in value the first rock that was sent out of Tonopah five years ago. Hugh Futon, who arrived from there Saturday, says at least three shipments were due to start from there at that time. One is from the lease of McCarthy and Kernan, on the McGonigill group, and another from the Blazer property. Assays from the former have been as high as 915 ounces of silver and \$103 in gold.—Tonopah Bonanza.

## Silver Peak Mines Never Patented.

One of the old time mines of Silver Peak that has produced tons of ore and has been held under a supposed patent for forty years, has been found to still belong to the government domain and last week was staked by E. E. Knapp, S. A. Knapp and J. D. Jones. The property is one of the original ones at Silver Peak and has worked large numbers of men and been a big payer.

## QUEER ACCIDENT.

## A Sneed Loses His Life in Lactial Fluid.

Yesterday a Sneed named Ben Annacks, who had been employed at the Dangberg Creamery met his death in a peculiar manner.

It appears that Dangberg has several thousand milch cows, mostly Holsteins, in one of the mountain valleys a few miles from Gardnerville, and he finds it considerably cheaper to fume the milk down into the creamery than to send it by teams. Yesterday there was an obstruction in the flume which caused a flood of milk to wash away the road for about half a mile and it backed up into Heidelberg Andersons house, ruining the furniture and carpets on the lower floor. Annacks attempted to get the jamb out of the flume and succeeded in doing so, but couldn't get away from in front of the torrent of lactial fluid that came down upon him and he was swept off his feet and away. The roaring torrent threw his body out a couple of miles below where it was recovered and taken to town.

The jury returned a verdict of accidental death and in future Dangberg will station men along the flume to guard against similar accidents and provide his men with suitable life preservers.

## A Forcible Definition.

A western newspaper defines a "mine promoter" as a man who has unlimited capital behind him, and not a damn cent in front of him. "This," says the Salt Lake Mining Review, "is more forcibly than elegantly stated, but generally true nevertheless."

## Commissioners Meeting.

All parties having claims against the county will file same on or before Saturday, Sept. 2, as the county Commissioners will meet on that day and allow all just claims against said county.

## H. B. VAN ETTEN, Clerk.

## Under New Name.

Commencing next Friday, the Nevada and California railroad, formerly known as the Carson and Colorado, will pass under the operation of the California, will be operated by the officials of the Oregon Short Line at Sparks.

The change takes place Friday, September 1st and is in line with the policy of economy adopted by the Harriman lines in the operation of various branch roads which feed the main line.

## Notice to Hunters.

Notice is hereby given that any person found hunting without a permit on the premises owned by Theodore Winters, will be prosecuted. A limited number of permits will be sold at \$5 for the season or 50 cents for one day.

## A. C. WINTERS.

## Hosiery 9 cents per pair.

An offer of \$3,000,000 for the Montgomery-Shoshone mine at Tonopah was refused a few days ago.

The Electrical workers of Tonopah have organized a union. Matt McGuirk is financial secretary.

Senator Clark says he will build a railroad into Bullfrog district when the ore tonnage justifies the construction of the line.

## SOME FREIGHT.

## Busy Scene Presented at the Local Sheds.

That the section south of Carson uses goods is demonstrated at the freight depot in this city. For the past week the truck handlers have been kept busy moving freight for Gardnerville and other points south.

Over forty thousands pounds of freight was unloaded yesterday, and this has been the order the past two weeks. Considerable Bodie and Aurora freight is going this way, and more will be forthcoming, as the mining camps have found it an advantage to ship by the way of Carson rather than over the C. and C. under the new order of affairs.

Four or five big teaming outfits are kept on the hustle, and the merchants are laying in a winter's supply. It is a pretty good sign of the times and shows that the section to the south is coming to the front in strides.

## A Fine Show.

Last evening the Kintoscope was crowded and those who attended were well rewarded for their visit. New films were shown and all of a most interesting nature.

The Damn family is decidedly amusing and the start of the great ocean yacht race is a fine piece of work. The hold up of the Deadwood stage is realistic and decidedly exciting. The illustrated songs were good and well rendered.

The program will be given again on Saturday evening with changes, which means that those who missed last evenings pleasure can have another chance. The yare well worth seeing.

## Official Program.

Yesterday W. P. Harrington delivered the official program for the Labor Day doings. The booklet is neat in appearance and gives a full list of events that are to take place next Monday. Carson is pretty well advertised in the book and it should return a harvest.

## Filled the Cavity.

The work of filling up the cave at the State well was in progress yesterday and the cavity is nearly filled with rock. It took a tremendous lot of "fillin" but it had to be done to stop the progress of the cave as the derrick was threatened for a time. It is the calculation to steam up today and start drilling in the casing.

15 cent hosiery reduced to 9 cents per pair.

The band will give a concert at the Capitol square this evening.

Mrs. Chas. Norcross of Reno is the guest of Judge Norcross and wife.

Reno is arranging for a big race during the week of September 11th.

Sam Cohn was an arrival from Reno on yesterday's passenger.

Mrs. Annie Welch, who escaped from the Insane Asylum has not been captured.

The fall wool crop is being shipped. Several tons have passed through town the past few days.

Rev. Darnelle, who has been rusticated at the sea shore, was an arrival on yesterday's passenger.

Yesterday was drummer day, as the town was filled with the busy hustlers.

The Churchill Standard has been enlarged to six columns and has added a new cylinder press to its equipment. Good indications of prosperity.

Work on the Norcross home is progressing rapidly and will make a showing in a few days as the carpenters are getting busy.

George Tyrrell has purchased the home belonging to Mrs. D. White. It is a very desirable piece of property and well situated.

Miss Bryant and Miss Swift, who have been spending several weeks at Hobart Mills, have returned to this city.

The building at the mud baths at Walley's was burned night before last Senator Dangberg will expedite the work of getting in the water supply for fire protection.

The Taggarts have had an inning recently on the witness stand and they both swear that they have never consumed any beer, never went on any bath work mentioning and walked the straight domestic path always.
